

HR AUDITOR FOR MICROSOFT LYNC®

Search, View, & Export Chat Logs from your Microsoft Lync® Environment

After years of helping customers archive and search their LCS, OCS and Lync logs, we've taken the feedback, sharpened the focus, and streamlined the user interface. The result: **HR Auditor for Microsoft Lync®**.

Install HR Auditor for Microsoft Lync®

HR Auditor is a quick, easy install. Server requirements include the .NET 4.0 Framework and Microsoft IIS. HR Auditor will require read access to your Active Directory and Microsoft SQL Server containing your LCSLogs. Install is typically less than 30 minutes.

Search with HR Auditor

The screenshot shows the search options panel with the following callouts:

- Search multiple date ranges:** Points to the date range selection area where 'Between' is selected and dates '7/2/2013' and '7/30/2013' are entered.
- Search multiple users at once:** Points to the user selection area where 'Shawn Works' and 'Eric Richards' are listed.
- Multiple filters available:** Points to the checkboxes for 'Only include 1 to 1 conversations' and 'Limit results to only chats where all participants were involved'.
- Search multiple keywords:** Points to the keyword selection area where 'Match all' is selected.

Quickly search chat conversations by keyword, user, or date range. Our visualization tools provide immediate views of usage levels, and allow you to quickly drill down into specific date ranges. Basic search is a powerful tool for browsing chat history. Search for users by typing in their name, and we will match their name against Active Directory using our type-ahead matching feature.

Advanced search allows for complex queries to pinpoint specific conversations. Specify particular users, keywords, or date ranges that you want to include or exclude from your searches. Visuals provide quick feedback on the number of results across different dates.

Export with HR Auditor

HR Auditor has a built in utility that allows for quick and easy export of conversations to either .PDF, .CSV or .TXT formats. You can export individual conversations, or an entire result set of conversations. PDF exports of multiple conversations are created with an index of each conversation, neatly organizing the results for review in your preferred PDF viewing program.

KEY BENEFITS

- Install and connect with your Lync environment in less than 30 minutes.
- Search with dynamic drill-down visualization tools.
- Secure access based on existing AD user and group access controls.
- Access control provided at 5 person increments.
